

Response to the Election of Species Requirement  
U.S. Patent Application Serial No.: 10/796,839  
Title: Attachment System for a Decorative Member

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

- 1-21. (Canceled)
22. (Previously Presented) A fenestration system comprising  
a glass unit;  
an attachment member secured to the glass unit;  
a grille installed adjacent said glass unit, said grille comprising an installation end; and,  
a grille clip pivotally connected to said installation end and engaged with said attachment member.
23. (Previously Presented) The system of claim 22, wherein said grille clip is frictionally engaged with said installation end.
24. (Previously Presented) The system of claim 22, wherein said grille clip is mounted within a recess formed in said installation end of said grille.
25. (Previously Presented) The system of claim 22, wherein said grille clip comprises a spring member.

U.S. Patent Application Serial No.: 10/796,839  
Title: Attachment System for a Decorative Member

26. (Withdrawn) The system of claim 22, wherein said attachment member comprises a receptacle in which a portion of said grille clip is disposed.

27. (Previously Presented) The system of claim 22, wherein said grille clip comprises a pair of pivot projections that engage said installation end and form an axis about which said grille clip pivots.

28. (Previously Presented) The system of claim 22, wherein said grille clip comprises an engagement tab that engages said attachment member.

29. (Withdrawn) The system of claim 22, wherein said grille clip comprises a camming surface that engages said installation end.

30. (Withdrawn) The system of claim 22, wherein said grille clip comprises a pair of opposed tabs that engage said installation end.

31. (Previously Presented) A decorative grille for a fenestration unit comprising:  
a grille body having an installation end; and,  
a grille clip pivotally attached to said installation end, wherein said grille clip secures said grille body in a fenestration unit.

Title: Attachment System for a Decorative Member

32. (Previously Presented) The decorative grille of claim 31, wherein said installation end comprises a recess in which said grille clip is disposed.

33. (Previously Presented) The decorative grille of claim 31, wherein said grille clip is frictionally engaged with said installation end of said grille body.

34. (Previously Presented) The decorative grille of claim 33, wherein said grille clip comprises plurality of installation ends.

35. (Previously Presented) The decorative grille of claim 31, wherein said grille clip comprises a pair of pivot projections that engage said installation end.

36. (Previously Presented) The decorative grille of claim 31, wherein said grille clip comprises an engagement tab for securing said grille body in an installed position.

37. (Withdrawn) The decorative grille of claim 31, wherein said grille clip comprises a camming surface that engages said installation end.

38. (Withdrawn) The decorative grille of claim 31, wherein said grille clip comprises a pair of tabs that engage said installation end.
